The Oral Reconstruction Foundation organises two International Symposia 2022

INTERNATIONAL SYMPOSIUM 2022 | 12 – 14 MAY 2022 | ORLANDO, FL

INTERNATIONAL SYMPOSIUM 2022 | 13 – 15 OCTOBER 2022 | MUNICH, GERMANY

The Oral Reconstruction (OR) Foundation organises two International Symposia in 2022 with the Foundation's initial founders BioHorizons Camlog as main sponsor. One will take place from 12 to 14 May 2022, in Orlando, Florida, USA, and the other from 13 to 15 October 2022, in Munich, Germany.

International Symposium 2022 | 12 – 14 May 2022 | Orlando, FL, USA

The US conference under the theme of “2022 Recharged: Strengthening Advanced Implant Therapy Skills”, will be held at the JW Marriott Orlando, Grande Lakes and will present a world-renowned lineup of speakers from all disciplines. The International Symposium will cover a wide range of contemporary issues in implant dentistry and tissue regeneration. It will feature immediate implant placement, digital workflow, tissue regeneration, esthetics, and full-arch solutions in implant dentistry, and presents the latest treatment options from world-renowned experts while enjoying time to collaborate with colleagues.

Moderators and presenters*

Dr. Kristine Aadland	Dr. Andrew Ferrier	Dr. Guido Sarnachiaro
Dr. Jumoke Adedoyin	Dr. Matthew Fien	Dr. Arshiya Sharafi
Dr. Tarun Agarwal	Dr. Gabriela García	Dr. Bart Silverman
Dr. Tara Aghaloo	Dr. Pedro Gazzotti	Dr. Daniel Spagnoli
Dr. Edward P. Allen	Dr. Mia Geisinger	Dr. Bobbi Stanley
Dr. Álvaro Blasi	Dr. Ramón Gómez Meda	Dr. Robert Stanley
Dr. Gonzalo Blasi	Dr. Fazeela Khan-Osborne	Dr. Marius Steigmann
Dr. Ignacio Blasi	Dr. Bach Le	Dr. Jason Stoner

The International Symposium in Orlando offers a choice of multiple breakout sessions and hands-on workshops from key opinion leaders from around the world; up to 24 CE credit hours will be available. For more information and to register, please visit www.orfoundationus.org.

International Symposium 2022 | 13 – 15 October 2022 | Munich, Germany

For those dental professionals who will not be able to attend the Orlando conference or who want to continue education with the OR Foundation, the International Symposium in Munich in October, also organised in cooperation with founding partner BioHorizons Camlog is another great opportunity.

Under the motto “Dreams and Reality: Treatment Concepts and Trends”, the conference programme is designed for dental professionals from all disciplines of implantology, and in combination with the German Dental Technician Congress on Saturday will showcase success stories in the team approach. The eminent scientific committee and internationally renowned speakers vouch for a differentiated and pioneering program in Munich.

Scientific Committee

Prof. Frank Schwarz
(Co-chairman)
Prof. Katja Nelson
(Co-chairwoman)

Dr. Mario Beretta
Dr. S. Marcus Beschnidt
MDT Vincent Fehmer
Prof. Gerald Krennmair

MDT Otto Prandtner
Prof. Mariano Sanz
Dr. Alex Schär
Prof. Michael Stimmelmayer

The International Symposium features a state-of-the-art programme with a mix of scientific and practice relevant lectures, exciting workshops, and a great social event to round up the experience for all participants. More information can be found on the [Oral Reconstruction's International Symposium 2022 website](#). Pre-register [here](#) to receive firsthand information about the Congress.

About the Oral Reconstruction Foundation

From the outset in 2006, the OR Foundation has supported basic and applied research projects, granted research funding to young scientists, and promoted training and continuous education. It has established a networking platform for international experts in a wide range of disciplines to foster the permanent exchange of knowledge and ideas.

The Foundation firmly believes that the best way to consolidate the scientific basis of oral reconstruction and serve patients' needs is to promote close international collaboration between universities, practitioners, technicians, and industry. Activities organized or planned under the patronage of the OR Foundation respect these principles in the same way they support the Foundation's objective: teaming up science and education to serve the patient.
