

## Press Release

---

### **BioHorizons Camlog and Amann Girrbaach announce cooperation in implant prosthetics**

**CAMLOG Biotechnologies GmbH with CAMLOG Vertriebs GmbH (BioHorizons Camlog) and Amann Girrbaach AG join forces and announce their collaborative cooperation in the field of implant prosthetics.**

**Basel/Wimsheim/Koblach – 10 October 2023.** The new CAM blanks from BioHorizons Camlog were developed for the Ceramill® CAD/CAM system and distribution to dental professionals in Germany and Austria by both BioHorizons Camlog and Amann Girrbaach having started as of mid of September 2023 with further European markets following from 4 October 2023 on.

"The CAM blanks from BioHorizons Camlog feature the blank holder patented by Amann Girrbaach and are compatible with our Ceramill® CAD/CAM system. This gives our customers and the patients a special added value", explains Michael Göllnitz, Managing Director of Amann Girrbaach GmbH. Customised one-piece titanium abutments and healing caps with an original implant connection geometry for the CAMLOG®, CONELOG® and iSy® systems can now also be manufactured by Amann Girrbaach customers on their own milling machines.

"We are very pleased that through this cooperation we are now also able to providing access to our original CAM blanks to dental laboratories working with Amann Girrbaach," says Martin Lugert, Managing Director of CAMLOG Vertriebs GmbH.

BioHorizons Camlog's and Amann Girrbaach's partnership represents a significant step forward to an extended number of dental professionals now having access to state-of-the-art materials and solutions that can enhance patient care and further improve treatment results.
